You can check the status of your request on the police website or immigration portal.

With the fiscal code you may:

- Enroll in an Italian University
- Open a bank account
- Sign a contract (rent, telephone contract, etc.)

to prescribe drugs, examinations and any specialist visits in exactly the same way as an Italian citizen.

Guide to the National Health System: The “Ministero della Salute” in collaboration with “Ministero dell’Interno” and “Istituto Nazionale Salute e Povertà” have realized a project co-funded by the European Union to inform foreign citizens about the National Health System. 6.2 - Extension of deadlines regarding enrolment for graduates (precautionary application)

If you are planning to graduate in the winter session or in the final session of the 2017/2018 academic year, there is a legal ruling that allows students to put off their registration for the 2018/2019 academic year. However, you will, in any case, have to fill in a application for registration for the 2019/2019 academic year, but it must be labelled "PRECAUTIONARY APPLICATION".

REQUIREMENTS

Should students not be up to date with the payment of their taxes and university fees for the previous academic year, this procedure will not be possible.

i. Connect to the Delphi site again and enter and validate your payment by entering the CTRL and AUTH codes that are printed on the Bank receipt.

N.B. Students that have submitted a "Precautionary Application" in order to obtain a reduction in taxes and contributions but have failed to graduate in time, will have to, however, through their reserved area of the Delphi portal, authorize the University to consult the INPS database in order to obtain their ISEE-University certificate. The deadline for this procedure is December 17th, 2018.

In cases where students have enrolled for the 2017-18 academic year without a precautionary application, it will, however, still be possible to submit a late request by formally submitting the request to the Student Secretarial Office in question which will verify the validity of the application. If the late request is made by January 30th, 2019 and is accepted, students will be refunded.

CANCELLATION OF THE PRECAUTIONARY APPLICATION
If students fail to graduate in the final session of the 2016/2017 academic year, they must connect again to their DELPHI (https://delphi.uniroma2.it/totem/jsp/index.jsp?language=EN) personal page and select “Cancelling a Precautionary Application”.

The system will cancel the "Precautionary Application", and will proceed with the enrolment of the student in the 2017/2018 academic year issuing a payslip regarding the first instalment of university fees to be paid and validated so that the system can print out the pay slip concerning the next instalment.

The first and second instalments must be paid, in any case, no later than 7th June 2019.

N.B. you must pay a penalty of 100 euros every time a payment is made beyond a deadline. This fine will automatically be added to the following instalment.

6.3 - Enrolment as a part-time student

Should students for work, family, medical, personal and other similar reasons consider it difficult to study the standard number of hours foreseen in an academic year, they can choose to attend a university course part time. Students choosing this option will increase the number of academic years but can benefit from a reduction in fees of 30%. For more details, see Chapter 6 - Taxes and Contributions.

The choice of a part time course is irrevocable, while students that have enrolled in a full-time course, can change and opt for part-time.

The discount of 30% foreseen for part-time students cannot be added to the exemptions listed in chapter 7.6.2 – Partial Exemptions

When you can choose the part-time option

It is possible to request the part-time option at the beginning of each academic year after having enrolled or registered in the academic years that follow. Students selecting this option in cases where they are enrolling or when registering in subsequent years must apply by 31st December 2018. For part-time enrolment in health area degree courses, part-time registration is only possible from the second academic year onwards and can only be requested for one year.

Natural duration of degrees and the arrangement of different course length

It is possible to apply for part-time conditions after initial enrolment and arrange a course length that is twice as long as the standard degree course,
unless there are other time limits foreseen directly in the didactic regulations of your course.

At the end of this period, students will be considered part-time students who are “fuori corso”. You can still benefit from a 30% reduction but the payment will be calculated according to the "maximum tax" foreseen for your course. For more details, see Chapter 6 - Taxes and Contributions.

In cases where students:

- **obtain over 36 ECTS credits (CFU)**, they will not be considered eligible for a discount in that year;
- **obtain the number of ECTS credits (CFU) needed to qualify for the final exam in order to complete their degree before the time limit foreseen for a part-time course**, they will, in any case, have to pay their fees for the entire period established.

The part-time option cannot be considered in any way differently from the normal duration of a university course regarding, for example, how many academic years should be taken into consideration when calculating retirement pensions and social security contributions. Certification, therefore, will indicate "normal" concerning the duration of the course from a juridical point of view together with the actual “agreed” duration for the part-time course.

**INSTRUCTIONS REGARDING YOUR PART-TIME REGISTRATION PROCEDURE**

b. Select Student Section, Key 3 “Enrolling part-time”.
c. Fill in the online application regarding the part-time option.

This application will be received by the Student Secretarial Office, which will check the validity of the information contained within before sending it to the Committee of the Didactic Structure (Consiglio di Corso di Studio) in question. In fact, the Committee of the Degree course will have to decide whether or not to accept the part-time option request, and can also provide students with a didactic proposal in order to help them better organize their studies.

Once the Student Secretarial Office in question has received the decision of the Committee of the Degree Course, students will be summoned in order to sign the contract at the Student Secretarial Office. They will also have to consign their self-certification concerning the work, family, medical or personal reasons which motivated their decision to opt for a part-time solution.
Chapter 7 – Taxes and contributions

The University of Rome Tor Vergata, in accordance with art.1, c. 254 of law 232 of December 11th, 2016 “Bilancio di previsione dello Stato per l’anno finanziario 2017 e bilancio pluriennale per il triennio 2017-2019”, has defined the levels of student fees to be paid for degree courses, in accordance with the principles of equality, advancement and progress, aiming to guarantee the right to study and to promote student dedication and merit.

Therefore, the University has established a new fee accounting system based on the following parameters:

- ISEE-University

- **Ordinary taxation** is applied to those students who are:
a) enrolled on a degree course in the 2018/2019 academic year;

b) enrolled in the 2017/2018 academic year and who have obtained at least 10 ECTS credits (or 6 ECTS credits for part-time students) from 10th August 2017 to 30th September 2018;

c) registered within a delay of maximum one year later than the natural duration of the course and those who have obtained at least 25 ECTS credits (or 18 ECTS credits for part-time students) from 10th August 2017 to 30th September 2018;

In this Ordinary taxation, a “no tax area” is foreseen for students who have an ISEE-University between 0 Euros and 13,000 Euros (students will have to pay only the regional fee).

- **Superior taxation** is applied to those students who registered within a delay of maximum one year later than the natural duration of the course and who have obtained at least 6 ECTS credits from 10th August 2017 to 30th September 2018;

- **Maximum taxation** is applied those students who have:

  - registered within a delay of maximum one year later than the natural duration of the course and who have not obtained at least 6 ECTS credits from 10th August 2017 to 30th September 2018;

The tuition fee will be calculated based on the ISEE-University, as follows:

- For an **ISEE-University between 0 Euros and 90,000 Euros**: the contribution will be proportional to the value and will vary according to the contribution class and the type of taxation of the course;

- For **ISEE-University of more than 90,000 Euros or for students that have no ISEE-University**: the contribution will be the maximum foreseen for the contribution class and type of taxation of the course.

In cases where it is not possible for foreign students to calculate their ISEEU-University and submit it to the University, the following taxation will be applied:

- 80% of the maximum rate for the students coming from developing countries (Ministerial Decree of 9th June 2017 n. 1455)

- 100% of the maximum rate for all the other international students.

7.1– Verification procedure regarding merit requirements needed for the calculation of university taxes

The evaluation system regarding merits (the number of ECTS credits obtained) is calculated automatically and requires no official application by the student. The ECTS credits (CFU) must be obtained within the twelve months before August 10th preceding registration. Only the registered exams within the above-mentioned date will be considered, except for credits obtained after an internship attended by students of health care degree courses. In this case, credits will be considered even if registered later than August 10th and before September 30th.

ECTS credits (CFU) of eventual “integrated” exams need to be registered by September 30th.

Credits obtained abroad at partner Universities during a student mobility program will be evaluated only if registered in the twelve months before September 30th, preceding registration.

7.2– Payment and deadlines of tuition fees

Students who intend to make use of the services provided by the University of Rome Tor Vergata must be up to date with the payment of fees and university contributions.

Students who are behind with the payment of their fees:

- cannot take exams
- cannot obtain any certificate relative to his/her student career
- cannot transfer credits to another University

Fees and contributions have to be paid with the following modalities:

a) First Instalment

All students except for those who are exempt from payment must pay the first instalment which includes:

1. 16-euro stamp duty
2. 140-euro regional fee
3. University contribution that varies according to the type of taxation:
   a. Ordinary taxation: 0 Euros
   b. Superior taxation: 200 Euros
   c. Maximum taxation: 332 Euros

7.4 – Online and hybrid courses in the Macroarea of Humanities and Philosophy

Contribution class 1, reduced by 20%, will be applied to students who have enrolled in online and hybrid courses in the Humanities and Philosophy Macroarea. The amount to be paid by the students in the “superior” or “maximum” tax bracket cannot be lower than 200 Euros.

In order to better understand the taxation system, listed below is a fee simulator: http://iseeu.uniroma2.it/ selecting “Simulatore tasse 2018/19”.

7.5 – ISEE–University

Students who wish to apply for university tax reductions must, through their reserved area of the Delphi portal, authorize the University to consult the INPS database in order to obtain their ISEE- University certificate. The deadline for this procedure is December 17th, 2018.

Students who decide not to apply for a reduction in tuition fees, who do not have a valid ISEE- University, who have an ISEE-University of more than 90,000 Euros or who do not authorize the consultation of the INPS database will automatically have to pay the maximum fee foreseen for their contribution class.
The University will not accept ISEE certifications that:
- have expired and which are therefore invalid
- are incomplete or compiled in the wrong way
- are deemed to be ineligible to obtain tax benefits for University studies

After the acquisition of the ISEE-Università certification, the taxes and contributions will be recalculated. Following this, no new forms of certification will be permitted for the remaining part of the academic year.

7.5.1 – What is an ISEE certification and what is it for?

The ISEE (Equivalent Economic Situation Indicator) certificate is the instrument used to evaluate the economic situation of students who are eligible for benefits. This can be obtained by combining and considering three elements: income, assets and family. For the purpose of tuition fees, if parents are not members of the family unit, students can be considered to be a single member of the family only in the following cases:

- students have not been living in the original family home (or in a house owned by a family member) for at least two years since the date of their original enrolment application for each time they apply for a course.
- the student has an adequate income.

Both conditions must be satisfied, otherwise students will be considered as a member of their parents’ family.

In accordance with current legislation, the only ISEE considered valid for the calculation of tax brackets and other benefits provided by the University is the ISEE-University.

7.5.2 – How to apply for an ISEE-University

In order to obtain the ISEE for services regarding the right of study (ISEE-University), students must fill in the form entitled “Dichiarazione sostitutiva unica(DSU) integrale”.

- The DSU contains information about the family and its members and about the assets and incomes of each member of the family. It must be filled out and be handed in at the following offices:
  - Centri di Assistenza Fiscale CAF
  - INPS, also online using the INPS portal

Having compiled and consigned their DSU, students must wait for an average of ten working days to obtain their ISEE-University.
Given that in order to compile the DSU, a lot of information concerning property, assets, and income must be collected, the procedure may be time-consuming. **Students should submit their DSU as soon as possible** to the CAF office which will provide the ISEE-University.

**The University cannot offer a direct DSU service.**

As soon as INPS or CAF provides the ISEE-University certification, the student must check on the Delphi platform that the uploaded document is correct and control the amount to be paid in the second instalment by December 17th, 2018.

Should any errors come to light, the student must report them through the following email address: caf@supporto.uniroma2.it.

### 7.5.3– Foreign Students

Foreign students who are not financially independent or whose families reside abroad and any Italian student whose income derives from another country, who would like a reduction in university fees, will have to obtain their ISEE-University certificate, from any CAF Office **by December 17th, 2018**.

To obtain an ISEE-University certificate, students must provide details regarding their incomes and assets in Italy and their incomes and assets abroad of each member of their family.

These documents need to be issued by the competent authorities in the country where the incomes are produced. They must also be officially translated by the Italian Diplomatic Authorities of that country together with the income expressed in Euros.

In those countries where obtaining such documents is difficult, the documentation may be requested at the foreign diplomatic Authorities in Italy and certified by the Prefecture in accordance with art.33 of the Decree of the President of the Republic, n. 445 of 28th December, 2000.

For foreign students from particularly poor countries indicated in the Ministerial Decree of 9th June 2017, n.1455, their income will be evaluated according to the documentation issued by the Italian Embassy in the student’s country of origin in order to certify that the student does not belong to an upper-class family with a high income(DPCM 97472001).

Having obtained their certificates, students must then go to the Foreign Student Secretarial Office and consign a copy of their final ISEE-University certificate issued by CAF together with all the documentation related to the certification. Following this, students will be able to check how much they will have to pay in their second instalment.
Should any errors come to light, students must report them to the following email address: caf@supporto.uniroma2.it

N.B.

The University will apply the following tuition fees to foreign students who either do not provide or cannot provide an ISEE-University certificate:

- 80% of the maximum rate for students from low-income countries (Ministerial Decree 9th June 2017 n. 1455)
- 100% of the maximum rate for all other international students.

For further information regarding ISEE-University, connect to the following website iseeu.uniroma2.it.

7.5.4 - Deadline for the ISEE-University submission

The ISEE-Università certification regarding the right to participate in a university course must be applied for by 17th December 2018. On receiving the ISEE certification, students, through the Delphi portal, must immediately authorize the University to obtain the ISEE-U from the INPS portal by no later than 15th January 2019.

Therefore, students must not consign any document to the University, nor should they send their ISEE-University by e-mail.

Should the DSU not be presented by the deadline of December 17th, 2018, students will be placed in the highest income bracket and therefore will not be entitled to any reduction in their tuition fees.

If the DSU is presented after December 17th, 2018, a penalty will be applied as follows:

<table>
<thead>
<tr>
<th>Application dates</th>
<th>Penalty</th>
</tr>
</thead>
<tbody>
<tr>
<td>From December 18th 2018 to March 15th 2019</td>
<td>150 Euros</td>
</tr>
<tr>
<td>From March 16th 2019 to May 31st 2019</td>
<td>200 Euros</td>
</tr>
</tbody>
</table>

The penalty for the late submission of ISEE-University may be combined with other penalties such as a late payment of tuition fees.
The penalty for the late transmission of your ISEE-University will not be applied in the following cases:
- Enrolment in a Degree (bachelor, master and one-cycle master degree) if the deadline for the enrolment is later than December 1st, 2018;
- Enrolment in courses with an admission test after December 1st, 2018;
- Enrolment after December 31st, 2018 due to a transfer from another University.

Students must retain their ISEE-University certificate as the University may in the future request to check it.

After the acquisition of the ISEE-Università certification, the taxes and contributions will be recalculated. Following this, no new forms of certification will be permitted for the remaining part of the academic year.

7.5.5- Recommendations

- Students who have applied for a Laziodisu scholarship, in the event that this scholarship is not awarded or is withdrawn, in order to obtain tax reductions, will have to, however, through their reserved area of the Delphi portal, authorize the University to consult the INPS database in order to obtain their ISEE-University certificate. The deadline for this procedure is December 17th, 2018.
- Students who submit a “domanda cautelativa” (precautionary application) in order to obtain a reduction in tuition fees due to their income and who fail to graduate in time must, through their reserved area of the Delphi portal, authorize the University to consult the INPS database in order to obtain their ISEE-University certificate. The deadline for this procedure is December 17th, 2018.

To this end, the University has the right of direct access to Local Tax Offices (SIATEL) in order to make these controls.

Prot. 7802 of March 24th, 2014): "If foreign students who have already enrolled at an Italian university have discontinued their studies and have applied to enrol again at the same University, they cannot make use of the specific permission of stay document that was issued for their previous registration. When students officially discontinue their studies, the motivations behind their original permission of stay request become invalid and therefore their authorization will be annulled (see Article 5, paragraphs 3, 4 and 5 of Legislative Decree no. 286 "Consolidated law regarding the provisions pertaining to immigration regulations and norms regarding the status of foreigners" and subsequent amendments)."
- It should be noted that any exam results obtained in academic years where students are not up to date with the payment of their contributions will be officially declared invalid. 8.11- Examinations, Verifications and issue of Certification

8.11.1- Exams

An exam is a verification that you have to do and pass for each course foreseen in the official and/or individual study plan of your degree course. The minimum vote is 18/30, while the maximum is 30/30 to which can be added a special distinction (lode). The final evaluation also takes into account the results of any periodic tests foreseen in some degree programs.

On passing the exam, students receive the number of credits foreseen for each course.

At the end of each course, students must take an exam at various time intervals, which are publicized. The type of exam varies according to the study course following the regulations of each didactic structure, which, depending on the specific characteristics of their courses, can establish a limited number of exam dates linked to the running of the course and an obligation to repeat the course if the exams have not been passed. Written exams can consist of quizzes, multiple-choice tests, etc., while oral tests are public.

To be admitted to Exams / Evaluation tests, you must:

- have included the relevant lessons in the approved study plan;
- have obtained their declaration of attendance where foreseen in the course regulations;
- have satisfied the compulsory exam order;
- be in line with the payment of taxes and contributions.

Exams that have been taken without having satisfied all the above-mentioned requirements will be declared null and void. Students will receive written notice regarding the annulment of their exams. Once an exam has been passed, it cannot be repeated. If you have failed an exam, you will not receive a vote, but only a result that will be registered in the exam report (withdrawn or rejected) which will not be included in your curriculum and therefore will not affect the average of your final vote. In order to take an exam, students must have their university exam booklet (Libretto) with them, and, where foreseen, an approved study plan.
8.11.2- Study Plan and Booking Exams

A study plan is the path that encompasses all your training activities (lessons, laboratories, etc.) that must be carried out to obtain your degree.

Each degree course involves a number of examinations, some of which are compulsory and are foreseen in the didactic programme established by institutional bodies. There are others, however, which may be chosen by students. The sum of compulsory examinations and exams chosen by the student constitutes a student's study plan to be followed in order to reach the number of ECTS required to obtain a degree. During the compilation of your study plan, you can choose a part of your examinations from a pre-set list (optional), while others, you have total freedom of choice (free choice).

You can book many Macroaree degree exams online. It is possible to do so from 30 working days before the date of the exam to 4 working days before. The data is always visible. The electronic exam result registration service is directly linked to the above-mentioned booking of exams. This electronic system, through a sequence of automatic procedures, considerably reduces the student exam result registration times and consequently certification.

8.11.3- Degree exam

- To be entitled to sustain your Degree and Master Degree exam, you must first pass all the exams related to didactic lessons and other forms of test and have completed all the credits foreseen in your study plan.
- You must also be up to date with your administrative obligations. In particular, you must be in line with the payment of all your fees and university contributions foreseen in your academic year, including the second instalment even if it has yet to expire.

It is, however, possible not to pay your university fees for the 2018/2019 academic year if you intend to graduate during the final session of the 2017/2018 academic year (for which you are already registered) by compiling a special PRECAUTIONARY APPLICATION with which you apply for a deferral of your enrolment for the 2018/2019 academic year. For more information, see Chapter 6.2 "Extension of deadlines regarding enrolment for graduates (precautionary application)"

The University has joined the AlmaLaurea Interuniversity Consortium, a service which was set up in order to create a link between companies and graduates and to act as a point of reference within the university environment for all those (students, operators, etc ...) who are involved, at various levels, in
