Chapter 3 – Preliminary Enrollment Procedure

Degree study programs are divided into:

- courses for a limited number of students, which require an "admission test" (programmed access)
- three-year undergraduate courses for an unlimited number of students (an "assessment test" is required in order to test the student’s general knowledge)
- Master’s degree courses for an unlimited number of students (a "verification of your curricular requirements" and of the student’s general academic background is necessary)
- study courses carried out in the English language with a pre-course evaluation of applications following specific procedures

Payment of a fee is required in order to participate in the selection process to access university courses.

The following are exempt from the payment of the above-mentioned fees:

Chapter 5 ENROLLMENT PROCEDURES FOR INTERNATIONAL STUDENTS

Students holding a qualification obtained abroad, after passing the admission or evaluation process (if required), can enroll in any program Tor Vergata University offers, available at:

http://web.uniroma2.it/module/name/PdnHome/newlang/english/navpath/COU

The first step is to obtain information about procedures and deadlines, which may differ for every single program, reported in the respective calls published on the website:

http://web.uniroma2.it/module/name/Content/newlang/italiano/navpath/Off/section_parent/5365

Enrollment in Italian universities is regulated by ministerial procedures, which establish different access procedures for non-EU students resident in Italy, Italian students holding a foreign qualification, non-EU students resident abroad (Student Visa applicants), “Marco Polo” Programme Chinese students, and non-EU students residing in Italy and holding an Italian qualification.

Detailed information is published on the ministerial website at:

http://www.studiare-in-italia.it/studentistranieri

In order to enroll in a course at the University of Rome Tor Vergata, foreign students holding a qualification achieved abroad shall have to submit a statement of comparability issued by CIMEA (Centro di Informazione sulla Mobilità e le Equivalenze accademiche) or a Declaration of value issued by the Italian competent authority.

Comparability refers to identifying the level of the foreign qualification based on the framework established by the Bologna Process and on the EQF (European Qualifications Framework). The mentioned comparison does not ratify the formal recognition of the foreign qualification within the Italian system or by the University of Rome Tor Vergata. However, it is a useful indicator for the evaluation of the qualification for the purpose of gaining access to higher education.

The University of Rome Tor Vergata and CIMEA have made an agreement for the issuing of a statement of comparability for final school and university qualifications obtained abroad. You can access the service by visiting the CIMEA website through the following link: http://cis.cimea.it/unitorvergata/

With the fiscal code, you may:

- Enroll in an Italian university

The University will also help you fill in the application form for your residence permit.

**Health Insurance**

A health insurance valid for Italy is extremely important in order to apply for a residence permit within 8 days of your arrival in Italy. In cases where you have not obtained health insurance in your country of origin and have not had it validated by an Italian Diplomatic Representation, you can choose between two options: either a private health insurance, or a voluntary registration with the SSN (National Health System).
Chapter 5 ENROLLMENT PROCEDURES FOR INTERNATIONAL STUDENTS

How can you register with the SSN?

For any information regarding this matter, please check the following website:
http://www.salute.gov.it/portale/temi/p2_6.jsp?lingua=italiano&id=1764&area=Assistenza%20sanitaria&menu=stranieri

Your registration with the National Health System (SSN), which lasts a year, gives you the opportunity to choose a doctor, who will take care of your health problems for free and will be able to prescribe drugs, examinations and any specialist visits in exactly the same way as an Italian citizen.

Guide to the National Health System: The “Ministero della Salute” in collaboration with “Ministero dell’Interno” and “Istituto Nazionale Salute e Povertà” have realized a project, co-funded by the European Union, to inform foreign citizens about the National Health System. “InformaSalute” is the name of the brochure produced by this project and it provides the foreign citizen with information regarding the Health System.

5.2.8 Tuition fees

Information concerning the payment of the tuition fees for the academic year 2019/2020 will be available on the website of the University in this Student Guide book, chapter 7 “Taxes and contributions”

5.3 MARCO POLO Program for Chinese students

The “Marco Polo” Program consists in a governmental agreement, between Italy and China, with the purpose of supporting the presence of Chinese students in Italian universities. The students who participate in this project will have the chance to arrive in Italy in advance compared to the other international students in order to learn Italian for 10 or 11 months.

In order to enroll in our University, you need to follow these steps:

5.3.1 Before You Leave

a) Check the list of places available for the a.y. 2019-2020 to make sure the course you are going to choose still has vacancies. The number of places available for each degree course is annually
set by academic boards. The MIUR website publishes information pertaining to all Italian universities.

b) **Contact in good time the Italian diplomatic representation in your Country** to inquire as to the documents required for **pre-enrollment application** and to apply for your student visa. For more detailed info, visit the website of the Ministry for Foreign Affairs.

**Pre-enrollment applications** shall be submitted to the Italian diplomatic representation in your Country by following the instructions on the MIUR website from **10th April 2019**, choosing both the study course you want to attend in Italy and where you would like to attend the course of Italian language and culture.

### 5.3.2 Once in Italy

Within eight days of your arrival in Italy with a “D” type national student visa, you will have to submit a Residence Permit Request to the competent “Questura” (specific police office) of the city where you intend to establish your residence. The application can be submitted to the Post Office using the appropriate kit. Applying implies the payment of taxes. Applicants will be notified about the date where they shall go to the appropriate offices of the Questura, bring photographs, and undergo a fingerprint check. If the application has to be integrated with additional documentation, you will be informed by SMS or a registered mail. You can check the status of your request on the police website or immigration portal.

**Fiscal Code request**

The fiscal code is a 16-digit alphanumeric code, issued by the income revenue authority (“Agenzia delle Entrate”) for free, which uniquely identifies Italian and foreign citizens.

With the fiscal code, you may:

- Enroll in an Italian university
- Open a bank account
- Sign a contract (rent, telephone contract, etc..)
- Register with the National Health System (SSN)

Citizens who are resident abroad may apply for one at the Italian Diplomatic Representation in the country of residence. In Italy, however, it has to be requested at the nearest "Agenzia delle Entrate" (income revenue authority) of the city where the student lives. The following Agenzia delle Entrate Office is the closest to the University:

You can visit the Agenzia delle Entrate website at:

https://www.agenziaentrate.gov.it/wps/portal/english/

PLEASE NOTE: In order to help you with these documents, during the event “Welcome weeks” which is going to take place in September, our University will be able to issue the fiscal code directly to you, thanks to the presence of the “Agenzia delle Entrate” operators. The University will also help you fill in the application form for your residence permit.

Health Insurance
A health insurance valid in Italy is extremely important in order to apply for your residence permit within 8 days of your arrival in Italy. In cases where you have not obtained health insurance in your country of origin and have not had it validated by an Italian Diplomatic Representation, you can choose between two options: either a private health insurance, or a voluntary registration with the SSN (National Health System).

For all information regarding this matter, please check the following website: http://www.salute.gov.it/portale/temi/p2_6.jsp?lingua=italiano&id=1764&area=Assistenza%20sanitaria&menu=stranieri

Your registration with the National Health System (SSN), which lasts a year, gives you the opportunity to choose a doctor, who will take care of your health problems for free and will be able to prescribe drugs, examinations, and any specialist visits in exactly the same way as an Italian citizen.

Guide to the National Health System: The “Ministero della Salute” in collaboration with “Ministero dell’Interno” and “Istituto Nazionale Salute e Povertà” have realized a project co-funded by the European Union to inform foreign citizens about the National Health System. "InformaSalute" is the name of the brochure produced by this project and it provides the foreign citizen with information regarding the Health System.

White Code
The University of Rome Tor Vergata is delighted to offer a new service that will guarantee free access to basic healthcare prior to registration with the Italian National Healthcare (Servizio Sanitario Nazionale). 5.3.5 Admission requirements

In order to be admitted into Bachelor’s Degree programs and one-cycle Degree programs, it is compulsory to hold a diploma obtained abroad after a minimum of 12 years of education and which allows you to enroll in a university in your Country. In cases where the local educational system provides shorter education programmes, you must prove you have attended university, and passed the exams required so as to meet the 12-year-education requirement, or you must hold a qualification of post-secondary studies obtained in Non-University higher education Institutes. It is additionally required that you pass an academic qualifying examination, when required in your Country (e.g.: GAO KAO in China; Vestibular in Brasil; Selectividad in Spain, etc.).

A pre-school year can also be considered a 12-year equivalent if the attendance was compulsory and part of the curriculum, and also in cases where the pre-school program was provided with the teaching of reading and writing in the language of the given Country together with some basic mathematics.

For this academic year, the students who failed to obtain a degree will be issued with a declaration of value only if a score of at least 400/750 is obtained at the “Gao Kao”, according to the regulations established by the Italian diplomatic representation in China. For students from Hong Kong and Macao, who are not subject to the “Gao Kao” exam, the documentation has to be consigned to the Italian competent consular authorities which, once verified its validity, will issue the declaration of value.

For further information on the validity of qualifications obtained abroad, please check the ministerial procedures published at the following link: 
http://www.studiare-in-italia.it/studentistranieri/.

To be admitted into Master’s degree programs (two-year programs), you need a qualification obtained in a foreign university or a post-secondary qualification achieved in a Non-University higher education Institute, which allows you to continue your studies in the academic institutes in your Country.

Should students for work, family, medical, personal and other similar reasons consider it difficult to study the standard number of hours required in an academic year, they can choose to attend a university course part time. Students choosing this option will increase the number of academic years but can benefit from a 30% fee reduction. For more details, see Chapter 7 – “Taxes and Contributions”.

The choice of a part time course is irrevocable, while students that have enrolled in a full-time course can change and opt for a part-time one.

**The 30% reduction for part-time students cannot be added to the exemptions listed in chapter 7.6.2 – Partial Exemptions**
When you can choose the part-time option

It is possible to request the part-time option at the beginning of each academic year after having enrolled or registered in the academic years that follow. Students selecting this option in cases where they are enrolling or when registering in subsequent years must apply by 31st December 2019. For part-time enrollment in healthcare area degree courses, part-time registration is only possible from the second academic year onwards and can only be requested for one year.

It is important to check, before proceeding with the application, whether the course of study provides for the possibility of part-time.

Natural duration of degrees and the arrangement of different course length

It is possible to apply for part-time conditions after initial enrollment and arrange a course length that is twice as long as the standard degree course, unless there are other time limits imposed directly in the didactic regulations of your course.

At the end of this period, students will be considered part-time students who are “fuori corso”. You can still benefit from a 30% reduction but the payment will be calculated according to the "maximum tax" for your course. For more details, see Chapter 7 – “Taxes and Contributions”.

In cases where students:

- obtain over 36 ECTS credits (CFU), they will not be considered eligible for a discount in that year;
- obtain the number of ECTS credits (CFU) needed to qualify for the final exam in order to complete their degree before the time limit for a part-time course, they will, in any case, have to pay their fees for the entire period established

The part-time option cannot be considered in any way differently from the normal duration of a university course regarding, for example, how many academic years should be taken into consideration when calculating retirement pensions and social security contributions. Certification, therefore, will indicate "normal" concerning the duration of the course from a juridical point of view together with the actual “agreed” duration for the part-time course.

INSTRUCTIONS ON YOUR PART-TIME REGISTRATION PROCEDURE

b. Select Student Section, Key 3 “Enrolling part-time”.
c. Fill in the online application regarding the part-time option.
Chapter 6– Registration in academic years following year one

This application will be received by the Student Secretarial Office, which will check the validity of the information contained before sending it to the Committee of the Didactic Structure (Consiglio di Corso di Studio) in question. In fact, the Committee of the Degree course will have to decide whether or not to accept the part-time option request, and can also provide students with a didactic proposal in order to help them better organize their studies.

Once the Student Secretarial Office in question has received the decision of the Committee of the Degree Course, students will be summoned in order to sign the contract at the Student Secretarial Office. They will also have to submit their self-certification concerning the work, family, medical or personal reasons which motivated their decision to opt for a part-time solution.
Chapter 7 – Taxes and contributions

The University of Rome Tor Vergata, in accordance with art.1, c. 254 of law 232 of December 11th, 2016 “Bilancio di previsione dello Stato per l’anno finanziario 2017 e bilancio pluriennale per il triennio 2017-2019”, has defined the levels of student fees to be paid for degree courses, in accordance with the principles of equality, advancement and progress, aiming to guarantee the right to study and to promote student dedication and merit.

Therefore, the University has set up a new system of tariff accounting structured as follows:

Chapter 7 – Taxes and contributions

Three types of contribution, for each contribution class, are based on the number of ECTS credits obtained and the year of registration for the degree course:

- **Ordinary taxation** is applied to those students who are:
  
a) enrolled on a degree course in the 2019/2020 academic year;
  
b) enrolled in the 2018/2019 academic year and who have obtained at least 10 ECTS credits (or 6 ECTS credits for part-time students) from 10th August 2018 to 10th August 2019;
  
c) registered within a delay of maximum one year later than the natural duration of the course and who have obtained at least 25 ECTS credits (or 18 ECTS credits for part-time students) from 10th August 2018 to 10th August 2019;

In this Ordinary taxation, a “no tax area” is meant for students who have an ISEE-UNIVERSITY between 0 Euros and 13,000 Euros (students will have to pay only the regional fee).

- **Superior taxation** is applied to those students who do not fall under the ordinary taxation and are registered within a delay of maximum one year later than the natural duration of the course and who have obtained at least 12 ECTS in the period from 10/08/2018 to 10/08/2019;

- **Maximum taxation** applies to those students who do not fall under the ordinary taxation or superior and are:
  
a) registered with a delay of more than one year later than the natural duration of the course.
  
b) registered within a delay of maximum one year later than the natural duration of the course and who have not obtained at least 6 ECTS credits from 10th August 2018 to 10th August 2019;

The tuition fee will be calculated based on the ISEE-UNIVERSITY, as follows:

- For an **ISEE-UNIVERSITY between 0 Euros and 90,000 Euros**: the contribution will be proportional to the value and will vary according to the contribution class and the type of taxation of the course;
  
- For **ISEE-UNIVERSITY of more than 90,000 Euros or for students that have no ISEE-UNIVERSITY**: the contribution will be the maximum foreseen for the contribution class and type of taxation of the course.

B) **Non-EU students**, with no Italian citizenship and belonging to a family unit whose income is earned abroad, enrolling in their year one in 2019/2020 do not have to submit an equalized ISEE-University. However, they do have to pay, in addition to the regional tax and the stamp duty, a fixed annual contribution based on their Country of origin, as follows:

- **€ 500 for students coming from the so-called developing countries**, as defined by the 11/06/2019 MIUR decree published on the Official Gazette n.144 of 21/06/2019 (Afghanistan, Angola, Bangladesh, Benin, Bhutan, BurkinaFaso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Congo Democratic Republic, Djibouti, Eritrea, Ethiopia, Gambia, Guinea, Guinea Bissau, Haiti, Kiribati, Korea Dem. Rep., Lao People's Democratic Republic, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Myanmar, Nepal, Niger, Rwanda, Sao Tome & Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, Zambia e Zimbabwe);

- **€ 1,000 for all other non-EU students.**

### 7.1 – Verification of merit requirements for the calculation of university fees

The evaluation system regarding merits (the number of ECTS credits obtained) is calculated automatically and requires no official application by the student. The ECTS credits (CFU) must be obtained within the twelve months before August 10\(^{th}\) preceding registration. Only the registered exams within the above-mentioned date will be considered, except for credits obtained after an internship attended by students of health care degree courses. In this case, credits will be considered even if registered later than August 10\(^{th}\) and before September 30\(^{th}\).

ECTS credits (CFU) of eventual “integrated” exams need to be registered by August 10\(^{th}\).

Credits obtained abroad at partner Universities during a student mobility program will be evaluated only if registered in the twelve months before August 10\(^{th}\), preceding registration.

### 7.2 – Payment and deadlines of tuition fees

Students who intend to make use of the services provided by the University of Rome Tor Vergata must be **up to date** with the payment of fees and university contributions.

Students who have not duly paid their fees:

- cannot take exams
- cannot obtain any certificate relative to their student career
- cannot transfer credits to another University

Fees and contributions have to be paid in the following way:

**a) First Instalment**

All students (except for those who are exempt from payment) must pay the first instalment, which includes:

1. €16 stamp duty
2. €140 regional fee
3. University contribution, which varies according to the type of taxation:
   - Ordinary taxation: 0 Euros
   - Superior taxation: 200 Euros
   - Maximum taxation: 332 Euros

7.4 - Online and hybrid courses in the Macroarea of Humanities and Philosophy

Contribution class 1, reduced by 20%, will be applied to students who have enrolled in online and hybrid courses in the Humanities Macro area.

The amount to be paid by the students in the “superior” or “maximum” tax bracket cannot be lower than 200 Euros.

In order to better understand the taxation system, a fee simulator is available here: http://studenti.uniroma2.it/ selecting “Simulatore tasse”.

7.5 - ISEE–University

Students who wish to apply for university tax reductions must, through their reserved area of the Delphi portal, authorize the University to consult the INPS database in order to obtain their ISEE-University certificate. The deadline for this procedure is December 16th, 2019.

Students who decide not to apply for a reduction in tuition fees, who do not have a valid ISEE-University, who have an ISEE-University of more than 90,000 Euros or who do not authorize the consultation of the INPS database will automatically have to pay the maximum fee for their contribution class.

The University will not accept ISEE certifications that:
- have expired and which are therefore invalid
- are incomplete or compiled in the wrong way
- are deemed to be ineligible to obtain tax benefits for University studies

After the acquisition of the ISEE-University certification, taxes and contributions will be recalculated. Following this, no new forms of certification will be permitted for the remaining part of the academic year.

7.5.1– What is an ISEE certification and what is it for?

The ISEE certificate (Indicatore Situazione Economica Equivalente - Equivalent Economic Situation Indicator) is the instrument for assessing the economic situation of individuals who request
subsidised social benefits. It is reserved for students from EU and non-EU countries who belong to a family unit with declared incomes in Italy.

This can be obtained by combining and considering three elements: income, assets, and family. For the purpose of tuition fees, if parents are not members of the family unit, students can be considered to be a single member of the family only in the following cases:

- students have not been living in the original family home (or in a house owned by a family member) for at least two years since the date of their original enrollment application for each time they apply for a course.
- the student has an adequate income.

If both conditions are not satisfied, students will be considered as a member of their parents’ family.

In accordance with current legislation, the only ISEE considered valid for the calculation of tax brackets and other benefits provided by the University is the ISEE-University.

**7.5.2 – How to apply for an ISEE-University**

In order to obtain the ISEE for services regarding the right to study (ISEE-University), students must fill in the form entitled “Dichiarazione sostitutiva unica (DSU) integrale”.

- The DSU contains information about the family and its members and about the assets and incomes of each member of the family. It must be filled out and handed in at the following offices:
  - Centri di Assistenza Fiscale CAF
  - INPS, also online using the INPS portal

Once compiled and submitted their DSU, students must wait for an average of ten working days to obtain their ISEE-University.

Given that in order to compile the DSU, a lot of information concerning property, assets, and income must be collected, the procedure may be time-consuming. **Students should submit their DSU as soon as possible** to the CAF office which will provide the ISEE-University.

**The University cannot offer a direct DSU service.**

As soon as INPS or CAF provides the ISEE-University certification, the student must check on the Delphi platform to verify the correct acquisition and recalculation of the second instalment.

Should any errors come to light, the student must report them through the following email address: caf@supporto.uniroma2.it.
7.5.3– Foreign Students

To access the benefits provided for the reduction of university contributions:

- Community students belonging to a family unit with income declared abroad, who register or enrol in years subsequent to the first one;
- non-EU students belonging to a family unit with income declared abroad, who enrol in years subsequent to the first one;

will have to obtain the ISEE-University certificate (data collection form for university indicator), by 16 DECEMBER 2019, at any CAF at national level and deliver it to the student secretariat;

To obtain an ISEE-University certificate, students must provide details regarding their incomes and assets in Italy and their incomes and assets abroad of each member of their family. These documents need to be issued by the competent authorities in the country where the incomes are produced. They must also be officially translated by the Italian Diplomatic Authorities of that country together with the income expressed in Euros.

In those countries where obtaining such documents is difficult, the documentation may be requested at the foreign diplomatic Authorities in Italy and certified by the Prefecture in accordance with art.33 of the Decree of the President of the Republic, n. 445 of 28th December, 2000.

For foreign students from particularly poor countries indicated in the Ministerial Decree of 9th June 2017, n.1455, their income will be evaluated according to the documentation issued by the Italian Embassy in the student’s country of origin in order to certify that the student does not belong to an upper-class family with a high income (DPCM 9/4/2001).

Once obtained their certificates, students must submit to the Foreign Student Secretarial Office a copy of their final ISEE-University certificate issued by a CAF office together with all the documentation related to the certification. Following this, students will be able to check the amount they will have to pay in their second instalment.

Should any errors come to light, students must report them to the following email address: caf@supporto.uniroma2.it

N.B.:

For non-EU students, with no Italian citizenship and belonging to a family unit whose income is earned abroad, enrolling in their year one in 2019/2020, the second instalment has a fixed annual amount based on their Country of origin, as follows:

- € 500 for students coming from the so-called developing countries, as defined by the 11/06/2019 MIUR decree published on the Official Gazette n.144 of 21/06/2019 (Afghanistan, Angola, Bangladesh, Benin, Bhutan, BurkinaFaso, Burundi, Cambogia, Central African Republic, Chad, Comoros, Congo Democratic Republic, Djibouti, Eritrea, Ethiopia, Gambia, Guinea, Guinea Bissau, Haiti, Kiribati, Korea Dem. Rep., Lao People's Democratic Republic, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Myanmar, Nepal, Niger, Rwanda, Sao Tome & Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, Zambia e Zimbabwe);
- € 1,000 for all other non-EU students.
Chapter 7 – Taxes and contributions

For more info on the ISEE-University, please consult paragraph 7.5 of the present guide book or visit: 
http://studenti.uniroma2.it/

7.5.4– Deadline for the ISEE-University submission

The ISEE-Università certification regarding the right to participate in a university course must be applied for by 16th December 2019. On receiving the ISEE certification, students, through the Delphi portal, must immediately authorize the University to obtain the ISEE-U from the INPS portal within the validity period of the certificate.

Therefore, students must not consign any document to the University, nor should they send their ISEE-University by e-mail.

Students who already have a valid ISEE-University do not need to apply for a new ISEE-University certificate for enrolment in the academic year 2019/2020 but must authorize the University to acquire the ISEE-University certificate from the INPS database through its reserved area of the Delphi portal by 16 DECEMBER 2019.

Should the DSU not be presented by the deadline of December 16th, 2019, students will be placed in the highest income bracket and therefore will not be entitled to any reduction in their tuition fees.

If the DSU is presented after December 16th, 2019, a penalty will be applied as follows:

<table>
<thead>
<tr>
<th>Application dates</th>
<th>Penalty</th>
</tr>
</thead>
<tbody>
<tr>
<td>From December 17th, 2019 to March 16th 2020</td>
<td>150 Euros</td>
</tr>
<tr>
<td>From March 17th, 2020 to May 29th, 2020</td>
<td>200 Euros</td>
</tr>
</tbody>
</table>

The penalty for the late submission of ISEE-University may be combined with other penalties such as a late payment of tuition fees.

The penalty for the late transmission of your ISEE-University will not be applied in the following cases:
- Enrollment in a Degree (bachelor, master and one-cycle Master's degree) if the deadline for the enrollment is later than December 1st, 2019;
- Enrollment in courses with an admission test after December 1st, 2019;
- Enrollment after December 31st, 2019 due to a transfer from another University.

Students must retain their ISEE-University certificate as the University may in the future request to check it.

After the acquisition of the ISEE-Università certification, the taxes and contributions will be recalculated. Following this, no new forms of certification will be permitted for the remaining part of the academic year.

7.5.5– Recommendations

- Students who have applied for a DiscoLazio scholarship, in the event that this scholarship is not awarded or is withdrawn, in order to obtain tax reductions, will have to, however, through their reserved area of the Delphi portal, authorize the University to consult the INPS
Chapter 7 – Taxes and contributions

Students who submit a “domanda cautelativa” (precautionary application) in order to obtain a reduction in tuition fees due to their income and who fail to graduate in time must, through their reserved area of the Delphi portal, authorize the University to consult the INPS database in order to obtain their ISEE-University certificate. The deadline for this procedure is December 16th, 2019.

7.6- Exemptions

7.6.1– Total exemptions

The following types of exemptions are to be considered for those students that are enrolled in Bachelor and Master’s degree courses, and one-cycle Master’s degree courses.

A. Students with disabilities

Students with certified disabilities, equal to or higher than 66%, or students with disabilities in accordance with art. 3, paragraph 1 and 3 of Italian Law n.104 of 5th February 1992, are totally exempt from the payment of taxes and tuition fees at initial enrollment and registration in the following academic years. Documentation, issued by a competent body, must be provided to demonstrate students’ disability, which must be submitted to the Technical Secretary of the Committee for the Disabled (Segreteria Tecnica della Commissione per l’inclusione degli studenti con Disabilità) and DSA (CARIS) in 1, via del Politecnico (Faculty of Engineering).

In accordance with art. 5 of law n. 221 of the Ministerial Decree of 7th May 1999, wounded and mutilated war victims are to be included in this category.

INSTRUCTIONS ON THE EXEMPTION PROCEDURE

Students that are entitled to total exemption must follow the above-mentioned enrollment instructions clearly stating the reasons behind their request (disabilities/victims of crime).

Students must bring a disability certificate of the National Health System of their country of origin, translated and legalized in Italian, declaring what and how serious the disorder/disability is in order to decide if he/she can benefit from the exemption of university fees.

The system will release a €0 bank pay slip, which must be validated with the AUTH code printed on the slip. Students are required to consign their documentation certifying their disability to the Technical Secretary of Commission for the Disabled (Segreteria Tecnica della Commissione per l’inclusione degli studenti con Disabilità) and DSA (CARIS) (segreteria@caris.uniroma2.it), within 60 days of their enrollment.

CARIS will check students’ eligibility and if it is considered valid, CARIS will:

a. Validate fee exemption;
b. email the student in order to confirm the exemption of fees;
c. send a copy of the disability document to the Student Secretarial Office; If it is not considered valid, CARIS will:

a. rehabilitate the payment of the first instalment;
b. email the student informing him/her that they must pay the first instalment;
c. inform the Student Secretarial Office that the student is not eligible for exemption.

In cases of “temporary invalidity”, students must repeat the above-mentioned procedure for each future academic year.

B. Victims of Organized crime and terrorism, plus victims injured in the course of duty

Students who have become invalid or are sons and daughters of invalids as a result of acts of terrorism or organized crime in Italy are totally exempt from the payment of fees and university fees for enrollment in degree courses and subsequent registration in the academic years that follow. Victims of terrorism and organized crime in accordance with the Decree of the President of the Republic (Law n. 243 of 7th July 1971) are to be considered equivalent to victims injured in the course of duty together with their family members and children (100% disability) in accordance with art.30 of law 118 of 1971.

C. Political refugees

8.10– Enrolling in Single-Subject Courses

As part of your professional upgrading, or curricular development or simply for your general cultural enrichment, you can apply to enrol in single-subject courses that are taught in a Bachelor’s or Master’s degree program without having to enrol in the whole program itself. The following requirements are required to be entitled to take these single exams:

- you must be enrolled in a foreign university;
- you are students enrolled in other Italian Universities, with permission of the University you are attending or you have applied according to specific agreements;
- you have graduated or have the academic qualification necessary to be enrolled in the degree programs of the University;

The University's governing body annually establishes the amount of enrollment fees that must be paid, with the exception of foreign students participating in inter-university mobility programs. Students enrolled in a Degree Course of the University cannot register in other paid study courses referred to in this article.

Single-subject courses are subject to the same general or special regulations established for each Department in question, in particular with regard to matters such as attendance.

Exceptions regarding propaedeutics may be authorized by the didactic structures involved.

The number of courses that can be attended in one year by the students mentioned in the previous paragraphs is established after evaluation of the sustainable limits of each single-subject course.

The number of places available for Degree courses with a limited number of places depends on the evaluation of the didactic Committee of the degree course in accordance with the facilities available, the sustainable teaching load and curricular requirements.

Students that have signed up for single exams are not eligible to receive the benefits foreseen for students enrolled in the University degree courses, except for students with disabilities and foreign students involved in inter-university mobility programs.

8.12- Examinations, Verifications and issue of Certification

8.12.1- Exams

An exam is a verification that you have to do and pass for each course foreseen in the official and/or individual study plan of your degree course. The minimum grade is 18/30, while the maximum is 30/30 to which can be added a special distinction (lode). The final evaluation also takes into account the results of any periodic tests foreseen in some degree programs.

On passing the exam, students receive the number of credits foreseen for each course.

At the end of each course, students must take an exam at various time intervals, which are publicized. The type of exam varies according to the study course following the regulations of each didactic structure, which, depending on the specific characteristics of their courses, can establish a limited number of exam dates linked to the running of the course and an obligation to repeat the course if the exams have not been passed. Written exams can consist of quizzes, multiple-choice tests, etc., while oral tests are public.

To be admitted to Exams / Evaluation tests, you must:
- have included the relevant lessons in the approved study plan;
- have obtained their declaration of attendance where foreseen in the course regulations;
- have satisfied the compulsory exam order;
- be in line with the payment of taxes and contributions.

Exams that have been taken without having satisfied all the above-mentioned requirements will be declared null and void. Students will receive written notice regarding the annulment of their exams. Once an exam has been passed, it cannot be repeated. If you have failed an exam, you will not receive a vote, but only a result that will be registered in the exam report (withdrawn or rejected) which will not be included in your curriculum and therefore will not affect the average of your final vote. In order to take an exam, students must have their university transcript of records (Libretto) with them, and, where foreseen, an approved study plan.
8.12.2- Study Plan and Booking Exams

A study plan is the path that encompasses all your training activities (lessons, laboratories, etc.) that must be carried out to obtain your degree.

Each degree course involves a number of examinations, some of which are compulsory and are foreseen in the didactic programme established by institutional bodies. There are others, however, which may be chosen by students. The sum of compulsory examinations and exams chosen by the student constitutes a student's study plan to be followed in order to reach the number of ECTS required to obtain a degree. During the compilation of your study plan, you can choose a part of your examinations from a pre-set list (optional), while others, you have total freedom of choice (free choice).

You can book many Macroaree graduation exams online. It is possible to do so from 30 working days before the date of the exam to 4 working days before. The data is always visible. The electronic exam result registration service is directly linked to the above-mentioned booking of exams. This electronic system, through a sequence of automatic procedures, considerably reduces the student exam result registration times and consequently certification.

8.12.3- Graduation exam

- To be entitled to take your Degree and Master Graduation exam, you must first pass all the exams related to didactic lessons and other forms of test and have completed all the credits foreseen in your study plan.
- You must also be up to date with your administrative obligations. In particular, you must be in line with the payment of all your fees and university contributions foreseen in your academic year, including the second instalment even if it has yet to expire.

It is, however, possible not to pay your university fees for the 2019/2020 academic year if you intend to graduate during the final session of the 2018/2019 academic year (for which you are already registered) by compiling a special PRECAUTIONARY APPLICATION with which you apply for a deferral of your enrollment for the 2019/2020 academic year. For more information, see Chapter 6.2 "Deadline extension for the enrollment of graduates (precautionary application)"

The University has joined the AlmaLaurea Interuniversity Consortium, a service which was set up in order to create a link between companies and graduates and to act as a point of reference within the university environment for all those (students, operators, etc ...) who are involved, at various levels, in
themes relating to university studies, such as employment, the condition of the young etc. The AlmaLaurea Consortium, in particular, aims to:

- facilitate work entry and improve the placement of young people on the workplace, help companies search for staff, improve the matching of labour supply and demand;

- assess the needs and professional profiles required by public and private Italian and foreign companies;
- analyze the external efficacy of study course proposals through the monitoring of job opportunities;
- develop a synergic link with high schools in order to better guide high school students in their choice of university course and their work entry into the labour market;
- promote every initiative which aims to facilitate the above-mentioned objectives both at national and European level.

Law 183 of 2010 introduced relevant modifications to Articles 1, 7, and 57 of Leg. D. 165 of 2001 and also introduced, into public administration, a “Comitato Unico di Garanzia per le pari opportunità, la valorizzazione del benessere e contro le discriminazioni” or CUG.

It entails, rationalizes, enlarges, and reinforces the functions previously carried out by the various committees promoting equal opportunities and contrasting mobbing, such as “Comitati per le Pari Opportunità” and “Comitati Paritetici per il contrasto al fenomeno del mobbing”.

Aimed at ensuring formal and substantial equality, in accordance with Art. 3 of our Constitution, the purpose of the CUG is to oppose any sort of direct/indirect discrimination, including gender discrimination.

Thus, the CUG is committed to removing all those factors which may negatively impact on equality, well-being, and security in work environments, which may determine inequalities in pay and career advancement.

As a body which supervises, guarantees, and promotes equality, non-discrimination, well-being, health, and security, the CUG represents a fundamental reference point for all the bodies, committees, and commissions of the University and for its whole community.
